

Association of Computer Engineers

Sponsorship Packet

2017 - 2018

Revised: October 2017

What is ACE?

In the Spring semester of 2014, most University of Florida's computer-related clubs were polarized to represent either Electrical Engineering (EE) or Computer Science (CS). Students in Computer Engineering (CE) and other computer-related fields wanted a club representing the union of EE & CS and came together to begin drafting a club. In the Fall semester of 2014, their ideas would become reality through the official foundation of the University of Florida Association of Computer Engineers.

What does ACE stand for?

The Association of Computer Engineers aims to:

- Promote Computer Engineering.
- Create an environment where students from computer engineering or other related majors can collaborate and effectively work together, practice all phases of computer engineering and other allied fields, and further their professional development.
- Facilitate interest in STEM fields to prospective students, non-engineering students, and the Gainesville community.

To achieve this goal, ACE plans, manages, and attends computer related projects, presentations, tutoring, mentoring, and special events hosted by the Computer & Information Science & Engineering (CISE) and the Electrical & Computer Engineering (ECE) Departments. ACE collaborates with other engineering societies to introduce technology projects to the greater Gainesville community. Additionally, ACE will showcase the benefits of getting involved and studying Computer Engineering and other computer-related fields at new student orientations

What does becoming a sponsor entail?

- Contributing to a University of Florida student organization that prides itself of being the leading club for students enrolled in Computer Engineering

Why should I be a sponsor?

- Advertise to our near 200 registered club members, all of which are University of Florida students
- Have your company name and logo featured on our organization website (www.gatorace.org)
 - Over 5,000 hits on GatorACE website each semester
- Have your company associated with an event or program

Sponsorship Packages

	Description	Cost
Sponsor a General Body Meeting	<p>Each month, ACE holds one general body meeting (GBM). This package allows you to sponsor the cost of food and drinks at one GBM.</p> <p>To thank you for your contribution, we will have "Sponsored by ____" on our sign-in form that every student must fill out.</p>	\$50 per GBM
Sponsor a GearUP Event	<p>This package allows your company to sponsor ACE's premier semesterly outreach event. The money gathered from this package will be used to purchase SnapCircuit kits that will be used to teach local children the fundamentals of electrical engineering.</p> <p>To thank you for your contribution, the GearUP event (and advertising flyers) will have your company logo featured, along with the opportunity to pass out promotional items of your choosing at the event.</p>	\$100 per event
Sponsor a HackerU Event	<p>This package allows your company to sponsor ACE's premier semester-long technical development workshop. The money gathered from this package will be used to purchase hardware for our Raspberry Pi kits that will be used to run workshops with club members.</p> <p>To thank you for your contribution, the HackerU event (and advertising flyers) will have your company logo featured, along with the opportunity to pass out promotional items of your choosing at the event.</p>	\$100 per event
Access to ACE Active Member Resume Bank	<p>This package allows you and your company full access to the ACE Active Membership Resume Bank for one semester (Fall or Spring). This package provides you a compiled list of resumes of our most active members in the organization.</p> <p>Note: Specific figures and statistics about the available resumes can be inquired at the below email.</p>	\$100 per semester

* Note: All sponsorship packages include logo placement on the organization website for **one** semester (16 week period).
